Description :

Prsentation de l'diteurNew York jeweller Garet James has her fair share of problems: money, an elderly father, a struggling business. One day she comes across an antiques shop she'd never noticed before. The owner possesses an old silver box that's been sealed shut. Would she help an old man and open it, perhaps? She does...and that night strange things begin to happen. It's as if her world - our world - has shifted slightly, revealing another, parallel place that co-exists without our knowledge: the world of the Fey...Garet learns that one of her ancestors was 'the Watchtower': an immortal chosen to stand guard over the human and the fey worlds - a role that she has, it seems, inherited from her mother. But the equilibrium between these two existences is under threat. The 16th-century magician and necromancer Dr John Dee has returned, the box has been opened and the demons of Despair and Discord released. In a race against time and impending

apocalypse, it is Gareth who must find Dee...and close the box. Revue de presse "A unique, imaginative and above all enjoyable tale of vampires, alchemists and fairies in New York"

(LOVEVAMPIRES.COM) "Engaging writing... wonderful descriptions... well-drawn characters... there's going to be a sequel and we can't wait!" (SFX Magazine) "Lee Carroll creates an unsuspected Manhattan touched by magic, and reinvents the epic quest in a startling contemporary way. It's Pandora's Box turned cybernetic!" (ERIC ORMSBY) "Engaging writing keeps you savouring each page" (IMAGINE
