What happened after Cinderella married her prince? How did the evil sorceress in Sleeping Beauty turn evil in the first place? Discover these stories and a world filled with magic, forbidden love, elves, sprites, dragons, and the most powerful creatures of all--the fairies--in Bonded, a collection of three fairy tale inspired novellas.
CINDERS ~ A Cinderella sequel. Money cant buy love, but magic isnt a sure bet either. Cinderella, now officially a princess, finds royal life is not what she once dreamed. When a mysterious elf from her past stirs up long-suppressed passion, Cinderella begins to wonder if there really is love beneath the spell that captured her husbands heart. But undoing magic can be harder than casting the initial spell, and the results are even less predictable.
THIRDS ~ A retelling of the Grimms fairy tale, One-Eye, Two-Eyes, Three-Eyes. Issina is surrounded by magic, yet none of it belongs to her. Despised and

abused by her mother and sisters, she finds comfort when she meets the beautiful elves living in the nearby woods. The elves want to help her discover her own magic, but its not the kind of power she hoped for, and she learns there is more to magic than getting what you want. SCALES ~ A Sleeping Beauty prequel. The sun never sets in the realm of the fairies. When the young fairy Serina looks into her sisters eyes, she sees darkness for the first time. After her mother is murdered, Serina defies fairy law to follow her sister to the human realm. There she discovers the strength of a bond, the weight of a promise, and the darkness in her own heart.
