Description : Description du produitThis edition of Virginia Woolf's popular fourth novel draws together all the textual variants to provide a text that represents as closely as possible Woolf's final intentions. The events of the novel occupy a single June day in Central London as wealthy and fashionable society hostess Clarissa Dalloway is preparing for a party she is to give that evening. Virginia Woolf breaks away from the traditional form of the English novel and shows her genius as a writer who is both accessible and popular.
